Re: WATER USE PLANS FOR 2005

TO THE SNYDERVILLE WATER USERS

The Purpose of this letter is to notify you that during 2006 the State Engineer will continue implementation of water regulation in Snyderville Basin.

The following water users were included in the regulation during 2005 and will continue to be included during 2006:

Clissold Investment Company.
Gorgoza Mutual Water Company
Grayhawk / DMB Park City LLC
D.A. Osguthorpe
High Valley Water Co.
Mountain Regional Water Special Service District
Park City
Summit Co. Service Area No. 3
Summit Water Distribution Company.

Water Use Plans must be submitted to the State Engineer Prior to the start of regulation each year. **Water Use Plans for 2005 must be submitted by December 31, 2005.**

Regulation based on the water use plans for 2006 will follow the same guidelines that have been used in previous years. Enclosed is a copy of the water use plan that was approved for you or your agency for 2005. There are three options for submitting a water use plan for the coming year: submit a letter stating there are no changes from the plan approved for 2005; complete and submit the enclosed blank water use plan form; or prepare and submit a water use plan on a form of your own creation. If you create your own form, we would request that it be similar in format to the enclosed forms.

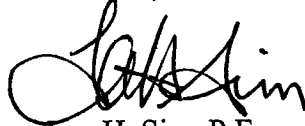

Water right ownership is an important issue in the approval of the Water Use Plan. For each water right listed on the Water Use Plan, either the water user must be listed as the owner of record on the Division's water right database or adequate documentation must be submitted with the plan to demonstrate the water user has a valid lease, contract or agreement allowing use of the water for 2006.

The use of water under a particular water right from a particular water source will only be approved as part of the water use plan if the appropriate applications have been filed and approved by the State Engineer allowing the use under the water right from the source.

Water use plans may be approved in full or in part. Those portions of the water use plan not meeting the above requirements (ownership and approved application) will not be approved. The water commissioner and the deputy commissioner will be instructed to regulate and distribute water only according to those portions of the water use plan that are approved.

If you have any questions concerning your Water Use Plan for 2006, please contact me by phone at (801) 538-7380 or by e-mail at LeeSim@utah.gov or Ross Hansen, Regional Engineer, by phone at (801)538-7397 or by e-mail at RossHansen@utah.gov.

Sincerely,

A handwritten signature in black ink, appearing to read 'Lee H. Sim', with a large, stylized initial 'L'.

Lee H. Sim, P.E.

Assistant State Engineer for Distribution
